

ROBOTICS GRADUATE MAJOR (MENG, MS, PHD)

This program is available at the following location:

- Corvallis

The interdisciplinary robotics program offers Master of Engineering (MEng), Master of Science (MS) and Doctor of Philosophy (PhD) degrees in Robotics.

MS degree candidates may pursue thesis or nonthesis options. A coursework-only MEng degree may only be pursued with special permission from a Robotics faculty member. The PhD program prepares students for careers in industry, research laboratories or universities. Students are encouraged to develop programs of study in close cooperation with the faculty members in their areas of interest.

The program includes core areas of robotics, including actuation, locomotion, manipulation, dynamics, control, sensing, artificial intelligence, and human/robot interactions.

For additional information on courses, advising procedures, faculty, and other aspects of the program, refer to the College of Engineering website (<https://engineering.oregonstate.edu/academics/programs/robotics/graduate>).

Major Code: 3250

Upon successful completion of the program, students will be able to:

MEng

- Conduct research or produce some other form of creative work.
- Demonstrate mastery of subject material.
- Conduct scholarly or professional activities in an ethical manner.

MS

- Conduct research or produce some other form of creative work.
- Demonstrate mastery of subject material.
- Conduct scholarly or professional activities in an ethical manner.

PhD

- Produce and defend an original significant contribution to knowledge.
- Demonstrate mastery of subject material.
- Conduct scholarly activities in an ethical manner.

Code	Title	Credits
Required Core		
ROB 514	INTRODUCTION TO ROBOTICS	4
ROB 515	INTRODUCTION TO ROBOTICS II	4
ME 531 or ROB 545	LINEAR MULTIVARIABLE CONTROL SYSTEMS I KINEMATICS, DYNAMICS, AND CONTROL	4
ROB 537 or ROB 534	LEARNING-BASED CONTROL SEQUENTIAL DECISION MAKING IN ROBOTICS	4
Electives		
Select credits in consultation with the major professor.		29-92
Total Credits for MEng/MS¹		45
Total Credits for PhD¹		108

¹ The PhD degree must contain a minimum of 45 didactic coursework credits. The MS degree (thesis) must contain a minimum of 30 didactic coursework credits. The MS degree (non-thesis) must contain a minimum of 36 didactic coursework credits. The MEng degree must contain a minimum of 45 didactic coursework credits. Didactic courses beyond the Core should be selected in consultation with the major professor
